

# **Votes and places for europeans**

# Visiting places in a global pandemic

- I'm Daria Lămboiu from România and i will present an article about some things you should know if you are travelling in other countries.  
If your country is a member of European Union you can travel without passports, in this pandemic, but you can't travel just with your ID  
Now, you need a negative PCR test who justifies that you don't have the virus, or if you are vaccinated with both doses you will need to have a certificate to prove that.  
In some countries actually you need to make a PCR test if you are not vaccinated or you don't have both doses at the entrance in the country and in the airport to be accurate.  
You need to wear the mask if you are vaccinated or not in the inside because the people who are vaccinated can be tested and the results can be positive.  
I think, these masks are so uncomfortable but they can protect us from spreading the virus.  
Some european countries for example, are on the red list for other countries (Cyprus is a country who are on the red list for Romania for example when im come back to my country i need to stay two weeks in isolation

# Voting for a better future!

- Voting is your civic duty! In the 21st century we can see that a high amount of people abstain from elections every year. The numbers are particularly high amongst younger people. Being an active citizen means being aware of the environment of the society you live in. It is your moral responsibility to vote so you can ensure a better future for you and for the upcoming generations. Elections have consequences and you can do your part to make it slightly safer! If everybody did their part, and there was coherency and teamwork I am certain we could reach whole new levels of a prosperous future. Furthermore, I would like to emphasise to you that it's your money being spent from taxes you pay, so it would be best for YOU to make sure you vote or even participate in the elections for a better result. If you are not voting you are basically giving away your voice and your vote ends up elsewhere.
- We always complain about changes, yet we don't want to be the part of the change. It doesn't work out like this, one good way to bring change is through voting! You are voting for people who will represent your country throughout the society, throughout the world so the importance is major high! Our communities are made up of friends, loved ones, Neighbors, and children. Some may not know how important voting is, while others do not have the privilege. Make the decision to vote for yourself and those around you. We have to train our minds! Grow critical thinking so we can choose wiser. Change is always possible!
